PROFESSIONAL SUMMARY

I'm Malindi Ruprabha, a Software Engineering undergraduate at CINEC Campus with a passion for UI/UX design, frontend development, and data analysis. I enjoy combining creativity and technical skills to create intuitive, visually appealing, and impactful digital solutions while continuously learning and growing in the tech field.

EDUCATION

BSc (Hons) in Software Engineering — CINEC Campus, Colombo, Sri Lanka

Relevant Coursework: Software Testing & QA, OOP, Data Structures, Networking, Web Development, Mobile Development, DBMS, Human Computer Interaction

Tools & Skills: Selenium, JMeter, JUnit, Git/GitHub, Figma

2022-Advanced Level- Maths Stream

PROJECTS

- **LinkedIn Job Search Automation** — Technologies used: selenium, java
 - Automated the process of searching job on software engineering in LinkedIn using Selenium WebDriver.
- **Eventrya - University Event Booking System** — Technologies Used: React.js, Node.js, Express.js, MongoDB, Tailwind CSS.
 - Developed a full-stack web application for students to view and book university events with live seat tracking
- **Titanic Dataset - Exploring the Titanic Dataset:** Feature Engineering & ML in Python
- **Data Analysis using python:** Car Data Analysis Project | Python, Excel
 - Analyzed car features such as brand, price, and horsepower.
 - Cleaned and processed data using Python.
 - Created visualizations to identify trends and insights.

- **Chatbot with OpenRouter API** : Chatbot Web Application | Python, HTML, CSS, OpenRouter API
 - Developed a web-based chatbot using HTML/CSS for the chat interface and Python (Flask/FastAPI) for backend processing.
 - Integrated the OpenRouter API to generate AI-powered responses from large language models.
- **SOS Game** : (GUI Application) | Python, Tkinter
 - Developed a **GUI-based SOS game** using Python and Tkinter with adjustable board sizes (3×3 to 6×6).
 - Implemented **game logic, score tracking, and win detection** for both user and machine players.
- **Power BI Project:**
- **Sales dashboard Using AI(Chatgpt): Create sales dashboard using chatgpt**

CERTIFICATIONS

- JDBC in java course — Great Learning (2024)
- Python for Beginners — University of Moratuwa (2024)
- Java basic programs — Great Learning (2024)
- OOP in java course—Great Learning (2024)
- Certificate of Completion in Computer Literacy—Open University (2023)
- Get Started with SQL Analytics and BI on Databricks—databricks (2025)
- Power BI for Beginners—Microsoft (2025)
- Automate Everything with n8n—Lets Upgrade (2025)

TECHNICAL SKILLS

Testing Tools: Selenium, JMeter

Programming: Java, Python, JavaScript,

Web Technologies: HTML, CSS, React.js, Node.js, Php

Database: MySQL

Other Tools: Git/GitHub, Figma, Canva, PowerBI, Word, Excel, Powerpoint

SKILLS

- Web Design • UI Design • Graphic Design • Data Analysis

SOFT SKILLS

- Analytical Thinking • Problem Solving • Critical Thinking • Teamwork • Communication
- Time Management • Collaboration • Team Work

RESEARCH

- AI and Mobile Technology for Talent Identification and Developing Rural Sports in Sri Lanka – Research abstract published at the 6th Research Symposium of CINEC Campus
- Day-care Connect – Research abstract published at the 6th Research Symposium of CINEC Campus

EXTRA-CURRICULAR ACTIVITIES

- Member of Cinec Media Circle (Graphic Designing)
- Member – Tesctrick Club, Rotaract Club
